

WDATCP/NRCS NE Area 2016 Training Schedule

WDATCP/NRCS Northeast Area Technical Center 451 W. Brewster St. Appleton, WI 54914

(WDATCP-Travis Buckley, Drew Zelle) (NRCS: Joe Van Hulle, Amy Moore, P.E., Doug Denk, Brian Bogucki)

This is the list of training events that this group will coordinate this year. If interested in attending any of the courses listed below please contact the person listed for specific details and the agenda for the training listed. Please let the contact person know if you are planning on attending at your earliest possible convenience, additional details will follow. PDH's will be offered for each course.

December 17, 2015

NE Area Technical Update (1)

The first of two scheduled technical updates primarily focused on design concerns.

Location: Brown County LWCD office meeting room, 1150 Bellevue St. Green Bay, WI 54302

Time: 9 am to 3 pm

Contact: Drew Zelle (drew.zelle@wisconsin.gov)

January 5, 2016

Introduction to Conservation Engineering

This training will focus on the responsibilities and limitations of the certification program, and will discuss engineering job class, design, and construction approval. Also an introduction to all the engineering resources available to a technician will be discussed. *Required training for those technicians wanting initial WDATCP Engineering Certification and NRCS Job Approval.

Location: Appleton Area Office

3369 W Brewster St., Appleton, WI 54914

Time: 9 am to 3 pm

Contact: Travis Buckley (travis.buckley@wisconsin.gov)

January 19, 2016

Silage Leachate Collection and Runoff Control

A design course for those who wish to design silage leachate runoff control practice to the 629 and 635 standard. Use of the standard and available tools to design these practices will be discussed with the goal of being able to complete a final construction plan.

Location: Appleton Tech Center Appleton Tech Center 3369 W. Brewster St. Appleton, WI 54915

Time: 9 am to 3 pm

Contact: Drew Zelle (drew.zelle@wisconsin.gov)

February, 2016

Waste Transfer Round Table

A facilitated discussion with a panel of local waste transfer system sales and installation company representatives. The discussion will focus on the design and installation of 634 waste transfer systems, and their components.

Location: TBA

Time: TBA

Contact: Travis Buckley (travis.buckley@wisconsin.gov)

February 16, 2016

Embankment Design

A design course focused on the NRCS Water and Sediment Control Basin Standard (638), Grade Stabilization Structure (410), and Pond Standard (378) and the differences between such when designing embankment structures. Basic flood routing will also be reviewed in this course.

Location: Appleton Tech Center 3369 W. Brewster St.
Appleton, WI 54915

Time: 9 am to 3 pm

Contact: Drew Zelle (drew.zelle@wisconsin.gov)

March 29, 2016

Soil Conservation-Identifying and addressing gully erosion and developing options to address the problem.

This is an introductory course on identifying gully erosion on the landscape and determining its causes and proposing solutions for control. Both engineering and non-engineering solutions will be addressed.

Location: Room 017 Calumet County Administration Bldg. 206 Court St., Chilton, WI 53014

Time: 9 am to 3 pm

Contact: Drew Zelle (drew.zelle@wisconsin.gov)

April 5, 2016

Evaluating Existing Manure Storage Systems Webinar. This is a short one hour webinar to discuss the methodology and tools to evaluate existing non-engineered manure storage structures or ponds to determine whether or not they meet NRCS Standards.

Webinar to be announced

Time: 9 am to 10 am

April 12, 2016

Feedlot Evaluation for NR151 and Farmland Preservation Compliance

A statewide effort to bring uniformity to the process of feedlot evaluation using the available tools (BARNY, BERT and others) to help develop best professional judgement in feedlot evaluation. This course will be a hands on course designed to teach the

participant how to evaluate a feedlot to determine whether or not it is a significant discharge.

Location: Marathon County place to be determined.

Time: 9 am to 3 pm or completion

Contact: Drew Zelle (drew.zelle@wisconsin.gov)

June, 2016

Wisconsin Construction Specification 9. Rock Riprap

This training will focus on technician quality assurance responsibilities, and testing according to Spec. 9. The procedure for gradation verification will also be taught. This is an in-field hands on training, so please dress accordingly.

Location: TBA

Time: TBA

Contact: Travis Buckley (travis.buckley@wisconsin.gov)

August, 2016

313 Stacking Facilities

A design course for those who wish to design both permanent stacking facilities at the animal production area and temporary stacks outside the animal production area to the 313 standard. This course will feature a morning classroom discussion, and an afternoon field site tour.

Location: TBA

Time: TBA

Contact: Travis Buckley (travis.buckley@wisconsin.gov)

September, 2016

NE Area Technical Tour

A conservation project tour showcasing the interesting work done by one of the counties within the NE area.

Location: TBA

Time: TBA

Contact: Travis Buckley (travis.buckley@wisconsin.gov)
