

**Outagamie County** in east-central Wisconsin is the sixth largest county in the state. Outagamie County consists of 26 different departments that provide services such as paving and maintaining roads, recycling refuse, policing roads, prosecuting and incarcerating criminals, facilitating air travel, protecting children, supporting veterans, ensuring food safety, protecting the environment, and providing long-term care for the elderly and disabled.

**COME AND MAKE A DIFFERENCE WITH US!**

**POSITION TITLE:** Agronomist/Conservation Planner      **LOCATION:** Appleton, Wisconsin

**DEPARTMENT:** Land Conservation

**WAGE/SALARY:** \$23.54 - \$30.27/hr.

**SCHEDULE:** Full-Time. 7:00 AM – 3:30 PM

**DUTIES:** The Agronomist/Conservation Planner will provide both general and site specific information to landowners including education, planning, and technical assistance for Agronomic practices, including but not limited to: conservation tillage, cover cropping, nutrient management, and integrated pest management practices within Outagamie County, along with implementation of federal, state, and County standards and ordinances. Specific duties include:

- ✓ Coordinates meetings with individuals, groups of landowners, and agronomy professionals to provide detailed information on the use and management of specific conservation tillage practices and tillage equipment.
- ✓ Works with landowners to develop cropping systems which include incorporating cover crops. This includes determining different mixes, timing, and integrating herbicide and pesticide application methods to best suit each farm.
- ✓ Utilizes SNAP Plus to show the benefits of conservation, compliance and also to determine potential non-point trading credits for trades with local Point Source dischargers.
- ✓ Supervises the “first time” operation of tillage, no-till planting, and inter-seeding equipment by landowners to assure optimal operation and results (selecting the proper closing wheels, down pressure, etc).
- ✓ Other duties as assigned

**REQUIREMENTS:**

- Bachelor’s or Associates degree in Agronomy, Soil Science, Natural Resource Management, Watershed Management, or a related field.
- Five years WI Certified Crop Advisor (CCA) experience, or equivalent in Agronomy related position, or any combination of education and experience that provides equivalent knowledge, skills and abilities.
- Knowledge of conservation tillage, residue management, nutrient management, cover cropping, and other current farming practices.

- RUSLE2 and SNAP Plus computer software experience is preferred.
- Valid Driver's License (CDL preferred), and WI Agronomic Certification (CCA, ARCPACS, or NAICC) required.
- ArcGIS Experience preferred.
- WI Commercial Pesticide Applicator Certification and USDA-NRCS Conservation Planner Certification preferred.
- Obtain Public Notary Certification within 6 months of hire.

**GENERAL:** Medical, dental, vision and WI Retirement benefits are available.

---
