

## Wanted

### Nature Educator

Summer Outdoor Adventure Club Inc. is more than a summer program. We do have summer for kids 10-13 yrs old. These are 3, 4, and 5 day trips to state parks in Wisconsin but we also have year round day adventures for Kindergarten through 5<sup>th</sup> grades. We travel to state parks, nature conservancy lands, state natural areas and other great destinations. We canoe, hike, snowshoe and bike.

Your job, after a short mentoring time, would be to lead these class trips, help organize the summer trips, as well as leading them with the help of other leaders and eventually be the lead person. After a few trips you will be known as the Nature Person in our area. We believe that our program is setting the foundation for future stewards of our environment/planet.

Right now this is a part time position but could easily become full time. We do have a website [soacadventures.org](http://soacadventures.org) and a youtube channel Summer outdoor adventure Club.

For more information or to set up an interview contact me at [soacgary@gmail.com](mailto:soacgary@gmail.com)
