

UPCOMING TOUR(S)

As a follow up to the December 15, 2021 Virtual Training on the Shoreline Stabilization Pamphlet each County received back in Spring 2022, don't miss the upcoming Tour of Shoreline Projects to showcase some of the practices in the field!

November 3, 2022 in
the Bayfield and Sawyer
County Areas Barnes /Hayward

November 4, 2022 in
the Iron, Oneida, and
Price County Areas
Springstead/Tomahawk/Phillips

Details on where we meet and our route of travel coming soon!

Plan for a 9am departure, bus travel to sites with a 4pm return

Limiting to 25 persons each day (pick one or the other or both)

Choose bus transport or travel on your own following bus – Lunch Provided

Dress for weather & expect difficult, steep terrain to some viewpoints

Variety of Stabilizations – rock, tree revetments, tree drops, fish sticks, bags, geogrid lifts, and vegetated rock (see pamphlet for photos of examples)
