Resources for Funding NR 151 Solutions

To close out the 2022 NR 151 Webinar Training Series, let's finish strong and get well acquainted with all of your options for funding solutions. Hear from the fund managers who know the most about where to find the resources for your office's next project and how to garner them. Join DATCP, DNR, and County Staff in our final installment of the series for an hour of presentation and discussion on how they are obtained, where and how they can be used by conservation staff. Bring your questions and your notepad as we tackle these together.
