

WISCONSIN NRCS Technical Service Provider Training

Conservation Plan Supporting Organic Transition (CAP138)

Wednesday, Jan. 23, 2019 | Holiday Inn Tomah, WI

Technical service providers (TSPs) can provide services to farmers transitioning to organic production on behalf of USDA's Natural Resources Conservation Service (NRCS). NRCS provides financial assistance to farmers developing an organic transition plan written by a technical service provider.

This training will discuss the process in becoming a TSP, how to write a conservation plan supporting transition, including the technical requirements, planning resources, and format.

Who should attend this free training:

Current TSPs, CCAs, and agricultural professionals interested in becoming a TSP, and those interested in working with organic producers
