

Juneau County
Land and Water Resources

Position Announcement

Soil & Water Conservation Technician Assistant/Program Specialist

This position will assist the Juneau County Land & Water Resources Department and be responsible for administering nutrient management training, assistance with watershed planning and modeling, as well as assist with technical planning and designing of soil erosion control practices and animal waste pollution systems in conjunction with the goals set forth in the Juneau County Land & Water Resource Management Plan. Must be able to plan, present and implement projects, ability to communicate effectively with the public and establish/maintain effective working relationships with cooperating agencies and landowners.

Requirements for this position are: Must possess a 4-year degree in agriculture, natural resources or related field, or a 2-year technical school degree in agriculture, natural resources or related field with three years of soil and water conservation field experience, or any combination of education and experience that will permit the individual to adequately perform the duties of a Soil & Water Conservation Technician and administer special projects. Valid Driver's license also required. We offer excellent fringe benefits and a competitive salary. Complete job description and application available on the Juneau County website at www.co.juneau.wi.gov under the employment tab.

Application and resume received by 4:00 p.m. on December 12, 2018.
